

6516206570.txt

I urge you to reject 04-160, and to support XM in broadcasting both local and national radio.

It is in the best interest of the people to have more choices in radio (both local and national).

Freedom of speech can't exist without a free media.

It is for these reasons I urge you to represent the best interests of the people as a whole and not the NAB in this matter.

Thank you,
Sean Ahaus
